CL SMOOTHLAY - LATEX

SAFETY DATA SHEET – LIQUID

■ PHYSICAL AND CHEMICAL PROPERTIES

| | | | |
|-------------------|-------------------------|-----------------------------|-------------------|
| Appearance: | Milky white liquid. | Auto ignition Temperatures: | N/A |
| Colour: | Distinctive | Vapour Pressure: | Approx as water. |
| Boiling Point: | Approximately as water. | Density: | Ca 1:01 kg/1.@20C |
| Flash point: | 100C | Solubility: | Miscible |
| Explosive Limits: | N/A | | |

■ STABILITY AND REACTIVITY

Stable under the recommended storage conditions.
Incompatibility (Materials to avoid). Reacts with strong acids and materials which react with water.
Bacterial degradation can occur if the material is stored for an unusually long period or is stored under unsuitable conditions.

■ TOXICOLOGICAL INFORMATION

Low Toxicity is indicated by available data.
Under normal industrial conditions, there is no indication that the product can be considered as toxic, harmful, irritating, corrosive or oxidising. One should however observe the usual precautionary measures for handling.

■ ECOLOGICAL INFORMATION

The product is miscible with water and as such could travel considerable distances if spilled into waterways. There is only a slow environmental breakdown of the product, but seemingly no tendency for bioaccumulation.

■ DISPOSAL CONSIDERATIONS

Dispose of packaging and any surplus material in accordance with local and national regulations. Do not discharge untreated waste latex directly into sewers or waterways.

■ TRANSPORT INFORMATION

The product is not classified as Hazardous for Transport.

■ REGULATORY INFORMATION

The product has no hazard within measuring of council direction 88/379/EEC (classification packaging and labelling of dangerous substances).

■ OTHER INFORMATION

This product should be used for this purpose according to careful industrial practice in cleanliness and handling. The information contained in this Safety sheet does not constitute the users own assessment of workplace risks as required by other Health & Safety legislation. The provisions of the Health & Safety at work etc Act, and the control of substances hazardous to health (COSHH) regulations apply to the use of this product at work.
