## CL SMOOTHLAY - LATEX

### SAFETY DATA SHEET – POWDER

#### ■ PRODUCT AND COMPANY IDENTIFICATION

Preparation Trade Name **CL Smoothlay Screed (Powder)**  
 Product Code **CL / P07**  
 Supplier **Creom UK Ltd**

#### ■ COMPOSITION/INFORMATION ON COMPONENTS

CAS Number	Chemical Name %	Classification
65997-15-1	Cement	15-25 x1 R41
65997-16-2	Cement	2-8 x1 R41

#### ■ HAZARD IDENTIFICATION

Risk of serious damage to eyes R41.  
 May cause irritation, Burns or dermatitis.

#### ■ FIRST AID MEASURES

**Inhalation:** If inhalation occurs, remove to fresh air. If nose or airways become inflamed seek medical advice.

**Eye Contact:** Wash eyes immediately with clean water for at least 15 minutes and seek medical advice without delay.

**Skin Contact:** Wash the affected area thoroughly with soap and water before continuing. If irritation, pain or other skin trouble occurs, seek medical advice. Clothing contaminated by wet powder should be removed, washed and thoroughly cleaned before using again.

**Ingestion:** Do not induce vomiting. Wash out mouth with water and give patient plenty of water to drink.

#### ■ FIRE FIGHTING MEASURES

Powder is not flammable and will not facilitate combustion with other materials.

#### ■ ACCIDENTAL RELEASE MEASURE

**Precautions:** Suitable respiratory protection should be worn. Contain spillage and keep dry. Uncontaminated material can be recovered for re-use. Contaminated material should be disposed of at an approved disposal site.

#### ■ HANDLING & STORAGE

Avoid contact with skin or eyes. Avoid inhalation of dust. Wear appropriate protective clothing. Store under cover and protect from moisture.

#### ■ EXPOSURE CONTROLS/PERSONAL PROTECTION

U.K occupational Exposure Standards. 5mg/m<sup>3</sup>-8hr/TWA

**Respiratory Protection:** Use suitable respirator if exposure above OES.

**Hand and Skin Protection:** Protective clothing should be worn which ensures that the powder or any powder/water mixture does not come into contact with the skin.

**Eye Protection:** Dust proof goggles should be worn wherever there is a risk of powder or any powder / liquid moisture entering the eye.

## CL SMOOTHLAY - LATEX

### SAFETY DATA SHEET – POWDER

#### ■ PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Solid	Meeting Point	N/A
Form	Powder	Flash Point	N/A
Colour	Grey	Explosive Properties	N/A
Odour	None	Relative Density	Approx 1.4
PH	12-14 in water	Solubility	N/A

#### ■ STABILITY AND REACTIVITY

In a dry environment the product is chemically stable.

#### ■ TOXICOLOGICAL INFORMATION

Powder is a severe eye irritant. Mild exposures can cause soreness. Gross exposure or undetected exposures can lead to chemical burning and ulceration of the eye. The powder or any powder/water mixture may cause irritant contact dermatitis, allergic (chromium) dermatitis and /or burns. Inhalation of the powder may cause inflammation of mucous membranes.

#### ■ ECOLOGICAL INFORMATION

The addition of powder to water will cause the pH to rise and may therefore be toxic to aquatic life in some circumstances.

#### ■ DISPOSAL CONSIDERATIONS

Bags of unused or contaminated packaging as well as hardened residue may be disposed by landfill if in accordance with local or national disposal regulations.

#### ■ TRANSPORT INFORMATION

The product is not classified as Hazardous for Transport.

#### ■ REGULATORY INFORMATION

R41 risk of serious damage to eyes. Contains Chromium (V1) May produce an allergic reaction. Contact with wet Powder may cause irritation, dermatitis or burns. Contact between Powder and body fluids (e.g. sweat and eye fluid) may also cause skin and respiratory irritation, dermatitis or burns.

#### ■ SAFETY PHRASES

Avoid eye and skin contact by wearing suitable eye protection, clothing and gloves.  
Avoid breathing dust.  
Keep out of the reach of children.

**On contact with eyes or skin rinse immediately with plenty of clean water. Seek medical advice after eye contact.**

#### ■ OTHER INFORMATION

This product should be used for this purpose according to careful industrial practice in cleanliness and handling. The information contained in this Safety sheet does not constitute the users own assessment of workplace risks as required by other Health & Safety legislation. The provisions of the Health & Safety at work etc Act, and the control of substances hazardous to health (COSHH) regulations apply to the use of this product at work. Powders are siliceous and cementitious. Respirable dust from aggregates over a prolonged period of inhalation could constitute a health hazard. If dust exhaust is not provided, dust masks or their equivalent to BS 2091 should be worn.
