■ ACCIDENTAL RELEASE MEASURES

Remove with absorbent material. To avoid adhesion to other materials wash/flush with water.

■ HANDLING AND STORAGE

Handling: Keep from freezing during transportation.
Storage: In dry conditions above 5°C-23°C. Store in full containers. Perishable.

■ EXPOSURE CONTROLS/PERSONAL PROTECTION

Cover glass and other materials to avoid adhesion. During application wear glasses and gloves as a precaution and to facilitate cleaning.

■ PHYSICAL AND CHEMICAL PROPERTIES

Form: Liquid
Odour: A weak, not unpleasant odour
Colour: Milk white
pH: 7.2
Boiling point: 100 degrees Celsius
Density: 0.99 kg/dm³
Flashpoint: None
Explosive properties: None
Viscosity:
Composition: Modified emulsions. Aliphatic polyethylene. Copolymer resins. Acrylic Copolymer.

■ STABILITY AND REACTIVITY

■ TOXICOLOGICAL INFORMATION

The product has no toxicological effects.

■ ECOLOGICAL INFORMATION

The product is biodegradable.

■ DISPOSAL CONSIDERATION

As product is non-toxic, non-flammable and biodegradable, no special disposal requirements are necessary. Dispose of as normal refuse in accordance with Local Authority regulations.

■ TRANSPORT INFORMATION

Must be transported within 5°C – 23°C temperature. Keep from freezing. The product is classified by international transportation of goods as non-hazardous.
